

## FAWCO TARGET PROGRAM 2016 - 2019

**Education:** *Empowering Women and Girls through Knowledge and Skills*

The Target Program demonstrates the power of FAWCO Member Clubs working together toward a common goal to create change and to increase knowledge and awareness of the global issues impacting women. The Target Program follows a three-year cycle of issue awareness and education, project selection, fundraising, project monitoring, review and evaluation.

At the FAWCO Interim Meeting in Frankfurt (March 11-13, 2016), **Education** – *Empowering Women and Girls through Knowledge and Skills*, was announced as the overarching theme for the FAWCO Target Program 2016 - 2019.

### Education & Awareness

Over the next three years, we will take a deep dive to learn what matters in girls' education. In our monthly **Blog: Let's Get Schooled** we will explore the issues which prevent millions of women and girls from receiving quality education around the globe; become familiar with the goals established by world leaders in education to remedy this injustice; and look at the impact educating women and girls have on their lives, their families, their communities and society.

### The Target Project

The Target Project is a way for FAWCO members to make an actionable investment to empower women and girls through knowledge and skills. With the support of The FAWCO Foundation we will employ the energy and generosity of our Member Clubs by fundraising for a single project supporting education. **We will be accepting applications for project proposals from May 1 to September 30, 2016.** A Selection Committee will present a short-list of proposals to Member Clubs to vote on and the winner will be announced at the Biennial Conference in Mumbai, India in March 2017.
